

Let's Paint Ice!

Keep your toddlers and preschoolers entertained on hot summer days!

You will need:

- Ice
- Paintbrushes
- Washable tempera paint
- Muffin tin or cups for paint

Ice painting is an ideal group activity for a mix of ages from 2 to 6 years old. You can fill an outdoor water table with ice, or use any size plastic container. We used a muffin tin to hold the tempera paint so that kids can share the paint. 2 year olds love to play with the ice and dab the paint. Preschoolers are captivated by the changing colors as the ice slowly melts. This Zooniactivity really keeps kids engaged in the shade on hot summer days!
