

# Let's paint the **Rainbow Road!**

## **You will need:**

- **Washable tempera paint**
- **Paper plate**
- **Paintbrush**  
A wide flat brush works best.
- **Sponge**  
A large, soft foam sponge works best for small hands.
- **White paper on a roll or poster board**  
We used the back of a leftover wallpaper.  
You can also use wrapping paper.

## **Instructions:**

Tape the paper to a table or the floor.

Squeeze paint onto paper plate.

Wet the sponge and squeeze out excess water, but be sure sponge is damp.

Apply each color in rainbow stripes with brush directly to sponge.

Without lifting the sponge, drag it across the paper like the curvy Rainbow Road.

Kids can press their hands on the sponge, then on paper to make rainbow trees. Once dry, decorate trees with leaves, flowers and Zoonicorn!
